## Mac SSH & file Transfer

To launch SSH on Macintosh Personal Computers and Macintosh Desktops:

1) From Top menu bar, click on "Go" > Applications

📹 Finder	File	Edit	View	Go	Window	Help			
				Ba Fo <b>Se</b>	ck rward lect Startur	o Disk o	n Deskto	೫[ ೫] p ଫ∺↑	•:
					All My File Document Desktop Download Home Computer AirDrop	s s		☆ 第F ☆ 第O ☆ 第D べ 第L ☆ 第H ☆ 第C ☆ 第R ◇ 第K	
				Re Co	Application Utilities ecent Folder to Folder.	ns rs  erver		ひ 業 K	
						-		and the second	

2) Find the Terminal icon/application and click to start

3) To launch SSH connection to the server, type the following command/prompt into the "Terminal" application:

ssh <u>uwinuserID@bravo.cs.uwindsor.ca</u>

For example: ssh <u>smith@cs.uwindsor.ca</u>

4) You <u>may</u> be asked to save the **"host key"** if it has not been seen before, accept or answer to the prompt with **"yes"** to save the key

- 5) Enter your uwindsor Password when prompted
- 6) Follow the linux commands provided on the class's website.

1) Download fugu on your Mac platform and run it.
